

## ■ Chrome Series DDR3

### 4GB DIMMs and 24GB Triple Channel Kits

Our Chrome series is designed by hardware enthusiasts for maximum performance with the Core i7- 980 CPU. These modules are hand tested in the latest Core i7 motherboards in triple channel configuration to guarantee phenomenal speed with six fully loaded modules. Each Chrome series module is equipped with a chrome plated heatsink that is designed by our thermal engineers to wick away heat from the components more efficiently than traditional heatsinks, resulting in higher clock speeds. The Chrome series is built expressly for extreme overclockers and gaming enthusiasts.

#### Ordering Information

|            |                         |
|------------|-------------------------|
| WB200UB4G9 | 4GB DDR3-2000 CL9 DIMM  |
| WB200T24G9 | 24GB DDR3-2000 CL9 DIMM |

#### Module Features

|                        |                                 |
|------------------------|---------------------------------|
| Chip Architecture      | 16 pcs 256Mx8 chip per DIMM     |
| Ranks                  | Dual Rank                       |
| Module Architecture    | 512M x 64                       |
| Type                   | Non-ECC Unbuffered              |
| Package                | 240-pin DDR3 DIMM               |
| Heatsink               | Hyper-efficient Chrome heatsink |
| Default Latency in SPD | 9-10-9-28                       |
| Warranty               | Super Talent Lifetime Warranty  |

#### Test Specs

|                   |                                      |
|-------------------|--------------------------------------|
| CPU               | Core i7- 980                         |
| Modules Installed | 6 DIMMs only*                        |
| Vdimm             | 1.65V                                |
| Motherboard       | Asus Rampage Extreme II/III or equiv |

|             | <b>WB200</b> |
|-------------|--------------|
| Clock Speed | 1000MHz      |
| DDR Speed   | DDR3-2000    |
| Data Rate   | PC3-16000    |

| <b>Latencies</b> | <b>CAS - tRCD - tRP - tRAS</b> |
|------------------|--------------------------------|
| WB200UB4G9       | 9-10-9-28                      |
| WB200T24G9       | 9-10-9-28                      |

Specifications subject to change without notice. You may achieve better or worse results depending on your other system components. \* All triple-channel overclock kits are tested with three modules installed; rated specs are not guaranteed for six modules in a system. © Copyright 2009, Super Talent Technology.
