**Quad Channel Kits**

Our Quadra series is designed by hardware enthusiasts to reach top clock speeds with X79 based Core i7 systems. These modules are hand tested in the latest Core i7 motherboards in quad channel configuration to guarantee phenomenal speed. Each Quadra series module is equipped with our advanced PX heatsink that is designed by our thermal engineers to wick away heat from the components more efficiently than traditional heatsinks, resulting in higher clock speeds. The Quadra series is built expressly for extreme overclockers and gaming enthusiasts.
