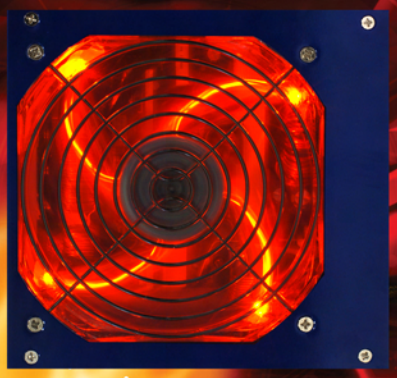
ATOMIC JUICE
POWER SUPPLY



Progressive 5 Year Warranty | DUAL GPU READY | Ultra Quiet | Pro Gamer Design | ATX12V v2.0 Ready | Controlled EMI Enclosure | nVIDIA SLI READY

- Engineered and manufactured to support intense power needs, the Atomic Juice series of Power Supplies are ideal for high performance and gaming systems.
- Delivering either 600 or 700 Watts of continuous power, these power supplies are perfect for dual-GPU setups, supporting the latest ATX12V v2.2 platform and are also designed to power earlier ATX v2.0 systems.
- The circuitry design offers up to 80% efficiency under a wide range of loads. Active Power Factor Correction increases efficiency and delivers stable power.
- The ultra-quiet 120 mm fan corresponds with temperature sensors, offering greater RPM and airflow as needed.
- With one Main MB connector (20 + 4 pin), two 12V (CPU 4 pin), one 12V (PCI-e 6 pin), one 12V (PCI-e 6+2 pin) six (SATA 15 pin), two floppy, and six (4 pin accessory) connectors, you have more than enough capacity to run the latest generation of CPU and graphic hardware on the market.
- Over Current/Voltage/Power Protection, Under Voltage Protection, and Short Circuit Protection shield your critical system components from transient power fluctuations.

Model Number: PS-600	Total Power: 600 Watt							SUPER ★ TALENT www.supertalent.com
AC Input	100 - 240 Vac ~ 10 - 5A ; 50 - 60Hz							
DC Output	+3.3V	+5V	+12V1	+12V2	+12V3	+12V4	-12V	+5Vsb
Max. Output Current	36A	30A	18A	18A	18A	18A	0.5A	3.0A
Max. Combined Power	155W		580W				20W	

12V Output Distribution List

Output Voltage	Device
12V1	CPU1
12V2	PCI-E2 / CPU2
12V3	M/B accessory
12V4	PCI-E1

600Watt

Model Number: PS-700	Total Power: 700 Watt							SUPER ★ TALENT www.supertalent.com
AC Input	100 - 240 Vac ~ 10 - 5A ; 50 - 60Hz							
DC Output	+3.3V	+5V	+12V1	+12V2	+12V3	+12V4	-12V	+5Vsb
Max. Output Current	36A	30A	18A	18A	18A	18A	0.5A	3.0A
Max. Combined Power	155W		680W				20W	

12V Output Distribution List

Output Voltage	Device
12V1	CPU1
12V2	PCI-E2 / CPU2
12V3	M/B accessory
12V4	PCI-E1

700Watt

- The Atomic Juice PSU's feature high-quality components, complete with a ball bearing fan, to ensure your vital hardware is supplied with clean, stable and reliable power without compromise.
- The universal AC input 100 ~ 264 Vac, automatically scans and adjusts the hardware to operate at the available input voltage. Quad 12 V rails provide independent and reliable power to your CPU(s), your video card(s) and to the other components of your rig.
- With an MTBF of over 100,000 hours and an industry leading 5 year warranty, you are equipped for years of worry free operation.

This is a great power solution for your dream system – boot up today!
